Lab Assignment 1

Academic Year: 2025- 2026
Course: Control System Course

Year: SY (A, B, C)

Semester: II
Code: BET5414

TITLE: TOOLBOXES IN MATLAB

SOLVE THE QUESTIONS ON ASSIGNMENT PAGES

1. Identify which Matlab toolboxes are installed on your system. Which command is used for it?
2. Describe the key features and functions for any 5 toolboxes installed on your system.
3. Elaborate the application for any one tool box listed above.
4. Define a transfer function in Matlab. And for it plot the response for step input. Display the poles and zeros. Comment on effect of pole on this response.
